EVENT PHOTOS of ESSAY WRITING ON CORONA VIRUS-2020

WHAT IS CORONA VIRUS???

This new virus is a type of coronavirus. Coronaviruses are a group of viruses that can cause a range of symptoms including a runny nose, cough, sore throat, fever. Some are mild, such as the common cold, while others are more likely to lead to pneumonia. They are usually spread through direct contact with an infected person.

The coronavirus gets its name from the crown-like spikes on its surface, according to the CDC. [Corona is Latin for crown]. Including the newly identified form of the virus, there are a total of seven coronaviruses that can infect humans, the CDC says. Other well-known coronaviruses include SARS and MERS.

The new virus causes a disease called COVID-19, which stands for coronavirus disease 2019, the year which it was discovered.
